

#7000gegenIsolation (against isolation)

## CALL FOR ACTION

7000 political prisoners of the Kurdish movement are on indefinite hunger strike. This action was initiated by the feminist and HDP politician Leyla Güven on 17. November. People are joining in globally.

Without solidarity, this struggle will remain isolated. Lets make it more visible. We must pass on the voices of the 7000!

On Saturday (6. April) we want to hang 7000 banners in Switzerland – a banner for each hunger striker. Let's all do something!

Hang your message from your window, in school or at work, on a bicycle or car, along a bridge or between lamps... Anywhere where it is visible in the public space.

Send a picture of your banners to +4177 991 29 42 via Signal, Whatsapp, Telegram / via mail to [rojka@riseup.net](mailto:rojka@riseup.net) / Twitter / Instagram via #7000gegenIsolation Information event this Friday (5.
